**Hurst Train Depot**

In 1905, the Rock Island Railroad approached William Letchworth Hurst, better known as "Uncle Billy", about laying track across a strip of land he owned for a line between Fort Worth and Dallas. In return for the right-of-way across the Hurst farm, the Rock Island Railroad agreed to build a depot and station in Hurst. At its peak, the Depot served as a telegraph station, had an area for loading, cattle pens, and warehouses. In 1908, there were six trains that ran through Hurst from Dallas and Fort Worth. The Depot was located at the southeast corner of the tracks and present day Harmon Street but at the time extended to the tracks. It is located about one-half mile west of the Historical Plaque at the Hurst RR Station. Today, the Kelly-Morse Paper Company owns the land and the Trinity Railway Express passes the site of the original Hurst Train Depot. Although the original site is no longer accessible to the public, this plaque is a fitting reminder of an important event in that by of Hurst's history.

# 1941-Present

## Victory Apartments

→ Besides Liberator Village, White Settlement had 20 other major apartment complexes called "Victory Apartments," also built for the workers of Consolidated.

- 15 units completed in 1941, 1942
- They were owned by 1,200 people in 200 apartments
- 100 units were used by 1,000 people in 1941
- 100 units were used by 1,000 people in 1942
- 100 units were used by 1,000 people in 1943
- 100 units were used by 1,000 people in 1944
- 100 units were used by 1,000 people in 1945
- 100 units were used by 1,000 people in 1946
- 100 units were used by 1,000 people in 1947
- 100 units were used by 1,000 people in 1948
- 100 units were used by 1,000 people in 1949
- 100 units were used by 1,000 people in 1950

## Lockheed-Martin

→ White Settlement has been home for many years from having an aircraft manufacturing plant here.

- The plant, which was originally Lockheed Aircraft Company, was General Electric and Lockheed Martin. An aircraft manufacturing plant was built here for the defense department.
- The 16th Street plant was the first Lockheed Martin plant.
- The 16th and 17th and 18th Street plants were built for the plant and the community that sprung up around it.
- Lockheed built 17 aircraft landing the second factory. The "Lockheed" was built in 1941 and the community that sprung up around it.
